Grief Support Group

Presented by the Hinds Hospice Center for Grief and Healing

Fresno Survivors of Suicide Loss (SOSL) grief support group is a peer led group of people who share the common experience of losing a loved one to suicide. Our goal is to create a safe and supportive environment where survivors of suicide can experience their grief, move towards healing, and connect with others who have experienced a similar loss. We believe that our stories are meant to be shared, not only for our own healing process, but also to provide comfort to others and promote awareness in the community.

If you have lost a loved one to suicide, we invite you to join us. When survivors share we can experience the healing that can happen when you share your story in a safe, supportive community.
